

LOUNGE CHAIR DESIGN

| CONCEPT VARHANY | 2015

Varhany is a small compact armchair, designed for young people who want to feel style, but can't invest to an expensive furniture.

Its main advantage is the variability of the upholstery, which can every customer configure as he wish.

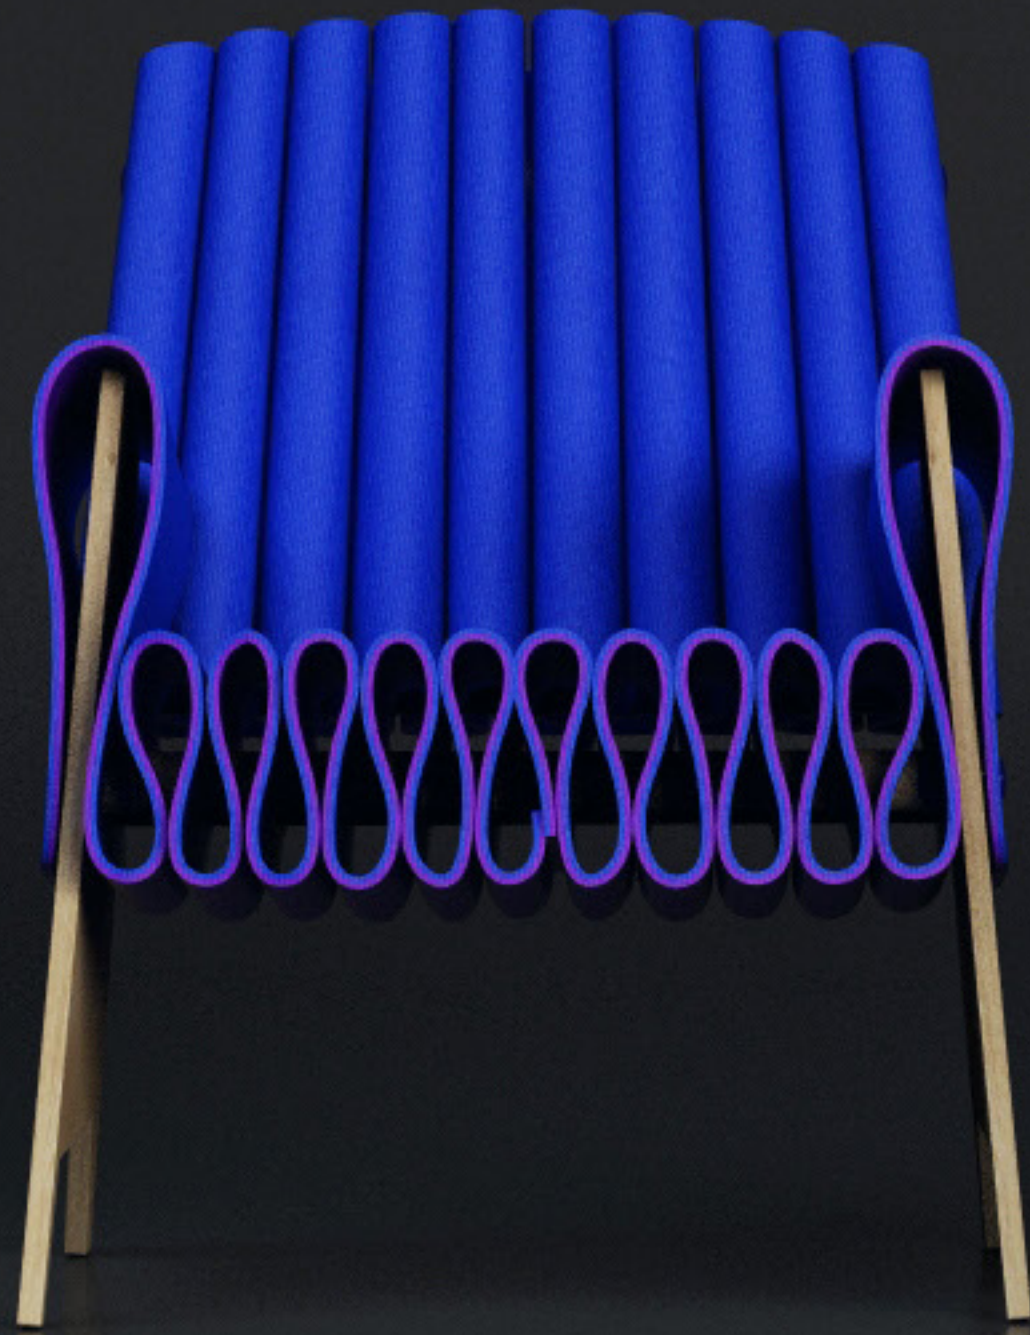

The shape is inspired by the music instrument, used in the churches – an organ. As a link to this connection I named my concept „Varhany“.

concept name: *Varhany*
type: *lounge armchair*
segments: *the base / upholstery*
materials: *plywood (beech) / polyethylen foam / assembly accessoires*
date: *20.11.2015*
