# APP FOR VISUALLY IMPAIRED

App with AI that
translates images
into sounds

and with which you
can communicate
in two ways:

by touching the
buttons on the display
or by voice control

do you want to
know what you
are holding in
your hand?

I offer fast and
accurate OCR*
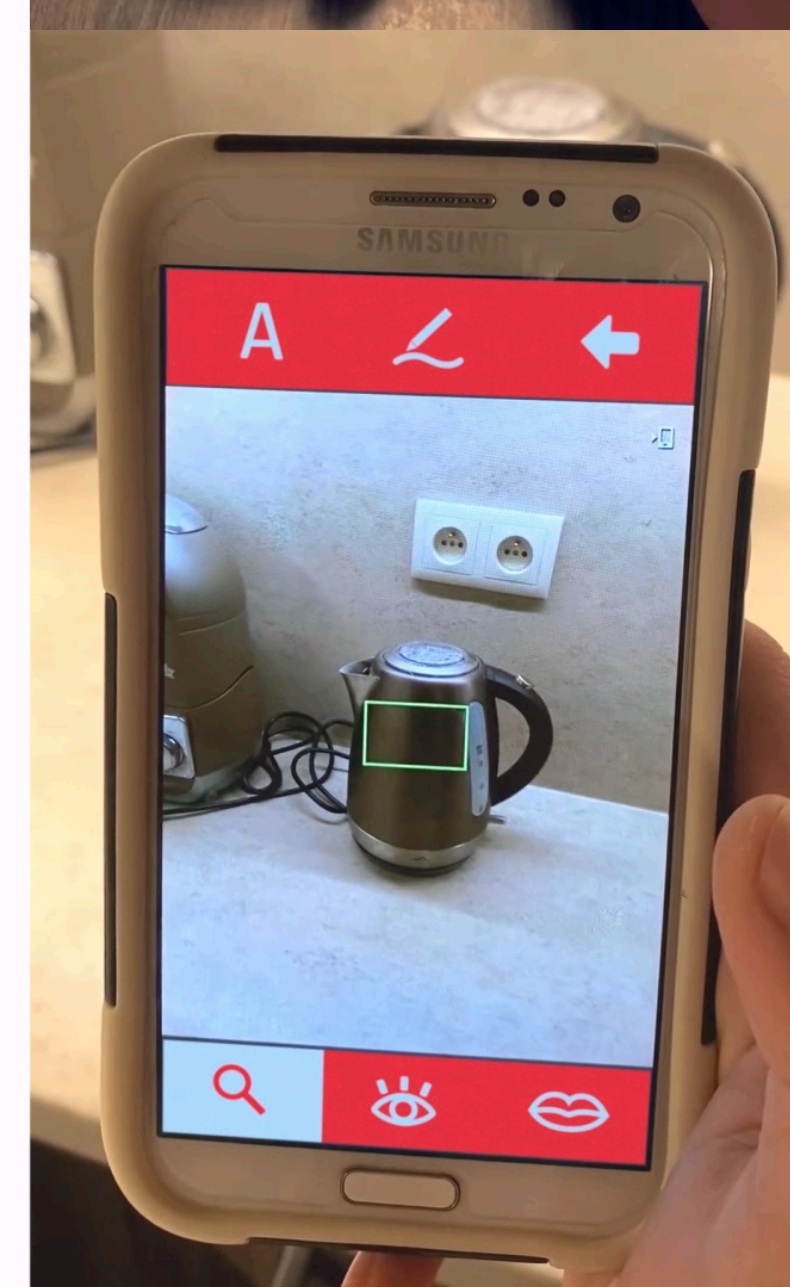

*optical charakter
recognition

I can even
recognize
script and
handwritten
text

you can ask
me to find
anything for you

I can describe
what's happening
around you
